We view and become to embody our **ADULT INCLUSIVE DESIGN-AID**, starting by the "mentoring creating mind" and "the common helping hand that is going to include mentoring as a lifelong learning programme for adults.

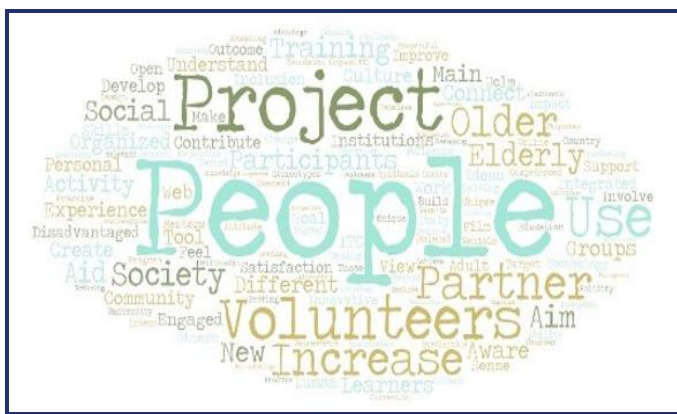

Our LOGO was designed to encourage our vision on common objectives, two hands are about to touch, i.e., they are ready to shaffle, creating a framework for encouraging adults to enroll as volunteer-mentors and to start a longterm mentoring community that will help us create a longlife learning project for adults who are interested in implementing our main objectives through collaborative work that is focused and squared (as in a camera angle) colleagues and friends.

delighted to contribute together with our work to maintain this partnership successful and united in the future and continue growing together to AID and to HELP creating a better common European future through our IOs (Intellectual outputs).

We hope you have a restful, well-deserved Easter break and hope we produce a fruitful exchange of experiences and continue collaborating to our best!
